Back-End Developer

Digital Mosaic

05/2022 - 04/2023

Gulistan e Jauhar, Karachi

We are working on some unique templates on HTML and CSS3 as a frontend side and backend on C# and asp.net Core (MVC), we design a Some unique websites and perform an CRUD operation and add on some RESTFULL API in our application.

Achievements/Tasks

- Certificate of Web Development

Secondary Computer Teacher

The Educators Arizona Campus

09/2023 - 04/2024

North Karachi, Karachi

As a Secondary Computer Teacher at The Educators Arizona Campus, I was responsible for delivering a dynamic and comprehensive computer science curriculum to secondary school students. My role involved designing and implementing engaging lesson plans that covered a wide range of topics, including programming, web development, and digital literacy. I utilized various teaching methods and technology tools to cater to diverse learning styles, ensuring that each student developed essential technical skills and a strong understanding of computer concepts.

PERSONAL PROJECTS

Pascal Jewelry

- In crafting the online presence for Pascal Jewelry, I skillfully employed HTML, CSS, and Bootstrap to create an elegant and responsive website that beautifully showcases the brand's exquisite craftsmanship.

Maiza Airlines

- At Maiza Airlines, I spearheaded a .NET-based project, focusing on streamlining flight operation systems and enhancing passenger management, by implementing robust and scalable solutions using C# and ASP.NET MVC frameworks.
